Smart Hackathon

Smart Energy: How can we use technologies (hardware and software) to optimize energy efficiency?

Smart Workspace: How can we offer smart solutions to make every office building a great place to work?

Smart Mobility: How can we contribute to solve the mobility challenges in our cities?

Smart Construction: How can we enhance working process for people building smart living space?

Smart Safety & Security: How can we improve people's safety and security in a smart building/district/city?
